A Summary of Demographic Characteristics, Enrollment Trends and First-Year Outcomes among Students Who Have Attended both Ivy Tech-Central Indiana (ITCI) and IUPUI

Prepared by the IUPUI Office of
Student Data, Analysis, and Evaluation (OSDAE)

October 10, 2014

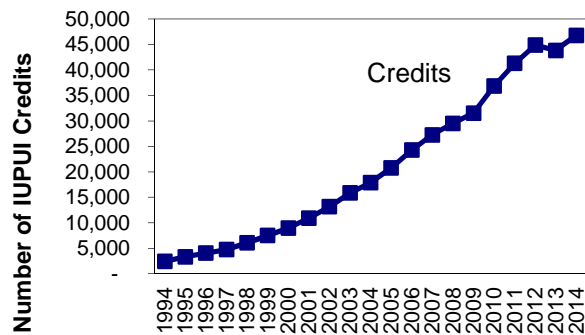

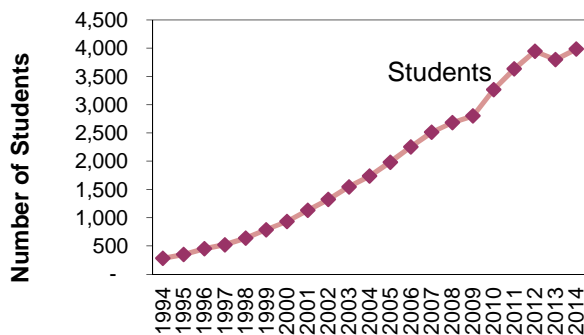

IUPUI Students Who Previously Enrolled at Ivy Tech-Central Indiana, Fall 1994-2014

Despite last year's change in timing of the data retrieval (which produced a slight drop in the results), this year has shown an improvement over 2012. The number of students has increased slightly while the average number of transfer credits has gone up by approximately one course. Although not included in these charts, seven students from Ivy Tech have transferred with their Gen Ed Core completed.

Enrollment Status and Demographic Profile of IUPUI Students Who Previously Attended Ivy Tech-Central Indiana, Fall 2014

ITCI transfers are somewhat less likely to enroll on a full-time basis as compared to the overall IUPUI undergraduate population. ITCI transfers have a higher percentage of African American students, yet are slightly lower than the overall average in Hispanic students. The gender distribution shows that the ITCI students have a somewhat higher male percentage than the overall undergraduate average.

Note: Students are identified by last institution attended. Includes all new students classified by IUPUI as transfers. Some transfers may have attended additional institutions. In addition, not all credit hours are submitted to IUPUI in a given year.

While the drop in new student transfers and the average number of credits transferred has continued, it is interesting to note that the number of students transferring credits has reached 100%. In the past, the few students who transferred in with no credits may not have had their credits submitted at the time of the data collection. This year, all students have had at least one course transferred at the time of data collection.

Distributional Articulation of Accepted Transfer Credits from IUPUI's Top Feeder Institutions, Fall 2014

Ivy Tech Community College continues to be IUPUI's largest feeder institution both in volume and percentage of distributed credits. Almost 79% of all credits within the Central Indiana region are distributed to a specific IUPUI course. IUPUI has been able to distribute almost 73% of the credits transferred from other Ivy Tech regions.

	Total Credits	Distributed Credit	Undistributed Credit	Percent Distributed

Comparative Performance of New Transfers at IUPUI

Fall 2013 New Transfers with Freshman Class Standing

The average first year GPA and one-year retention rate of students who transferred from Ivy Tech-Central Indiana to IUPUI in Fall 2014 as freshmen were lower than the averages of all external transfers; however, Ivy Tech-Central Indiana is the median for both of these measures. It is important to note that the overall totals from each institution are rather low and the averages could fluctuate greatly from year to year for each institution.

Institution	Number of Students	Average First Sem. GPA	Average First Year GPA	One-Year Retention Rate
Ivy Tech-Central Indiana	69	2.51	2.49	66.7%
Ivy Tech-non Central Indiana	29	2.62	2.59	65.5%

**Freshman status is based on beginning number of credits and first-time-in-college status.

Comparative Performance of New Transfers at IUPUI

Fall 2013 New Transfers with Sophomore Class Level Standing

Ivy Tech-Central Indiana's first-semester and first-year GPAs are the second lowest among the major feeder institutions. ITCI's one-year retention rate among sophomores is the median for all listed institutions.

Institution	Number of Students	Average First Sem. GPA	Average First Year GPA	One-Year Retention Rate
Ivy Tech-Central Indiana	211	2.58	2.51	73.9%

Comparative Performance of New Transfers at IUPUI

Fall 2013 New Transfers with Junior and Higher Class Level Standing

Ivy Tech-Central Indiana is second lowest in average first-semester GPA and one-year retention rate among transfers with a junior or higher class level standing. ITCI is third lowest in average first-year GPA. It is worth noting once again that the totals from the comparison schools are low and the performance of just a few students can change the numbers significantly.

Institution	Number of Students	Average First Sem. GPA	Average First Year GPA	One-Year Retention Rate
Ivy Tech-Central Indiana	237	2.89	2.86	78.5%
Ivy Tech-non Central Indiana	61	3.09	3.00	80.3%
