Looking to gather data through a survey to better inform decision-making in your department/unit? What you are needing may have already been collected and is waiting for you to find it! This session will show you where to find results for past Institutional surveys such as the 2014 Campus Climate Survey, Faculty/Staff Satisfaction Surveys, Entering Student Survey, and the First Destination Survey to name a few. If the information you are seeking is not available we plan to give helpful tips and best practices for crafting surveys to effectively gather needed data.
