Definition of Unmet Financial Need

The National Common Data Set provides a framework for calculating a student's academic year financial need that is "met" by different sources of financial support.

Unmet Need is the portion of a student's academic year financial need that exceeds these forms of financial support.

Calculation Example

Cost of Attendance (COA)

1. Tuition/fees, housing/meals, books/supplies, travel, and personal expenses = \$24,000

Expected Family Contribution (EFC)

1. A FAFSA-driven expectation of family financial support - \$10,000

Gift Aid

1. Scholarships, grants, etc. from federal, state, IUPUI, and private sources - \$1,000

Self-Help Aid

1. Subsidized federal loans and federal work study earnings - \$8,000

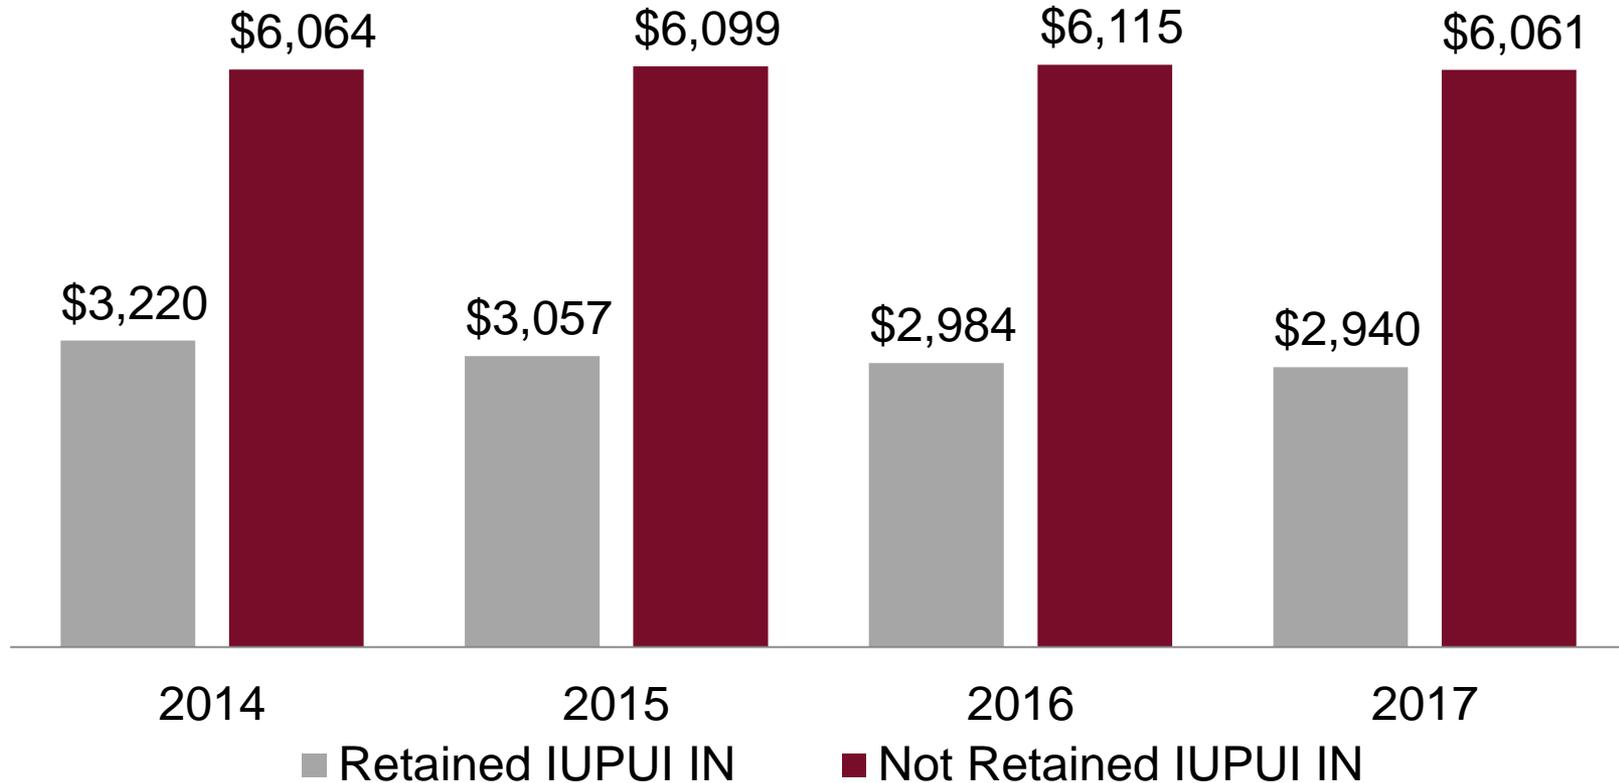

Difference is **Unmet Need** = \$5,000*

* Students must take out unsubsidized loans, private loans, or work to support unmet need

Points to Consider to Improve Student Success and Learning:

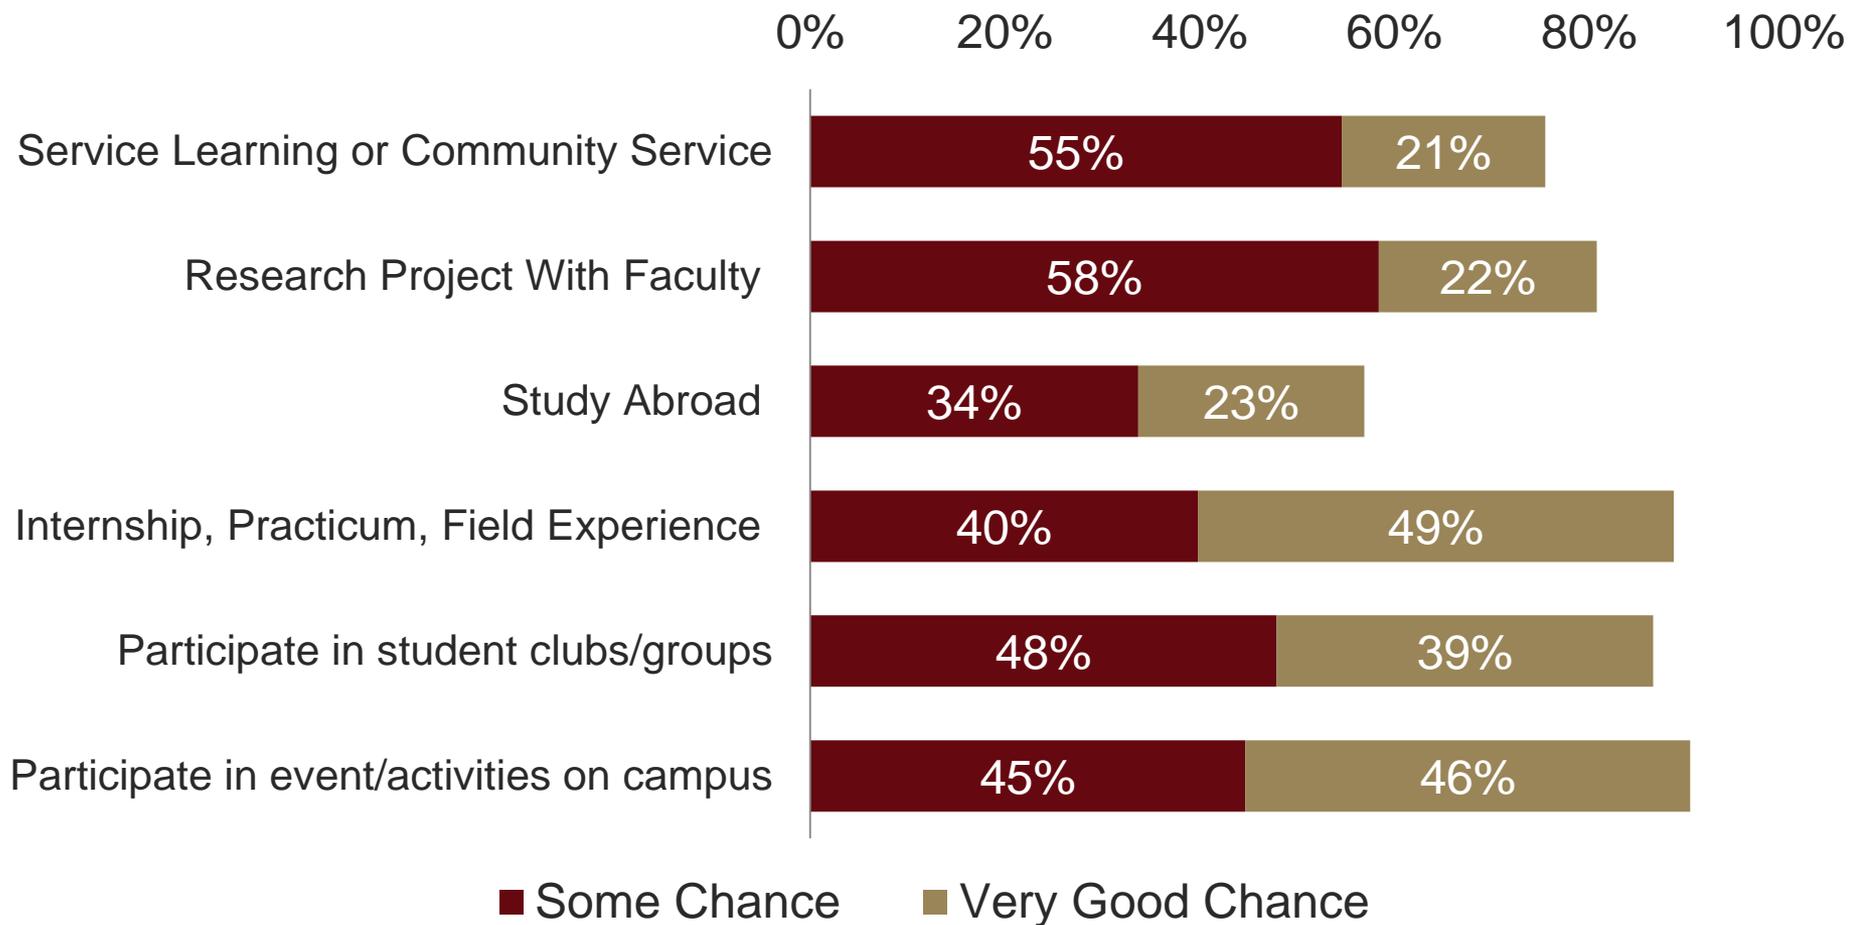

1. Many IUPUI students:

- First-generation college students
- From low-income backgrounds
- Attend classes full-time while balancing work and family commitments
- Did not begin here (transferred from another institution)
- Live off campus
- Have significant external commitments (off-campus work, caring for dependents, household responsibilities, commuting to campus)
- Have diverse learning needs and goals
- Seek community from your classrooms (implication is to create engaging experiences that allow them to interact with each other/faculty members and form peer networks of support)
- Seek applied and life-relevant learning experiences so they are prepared for future careers
