The IUPUC Campus Climate Survey was administered to IUPUC faculty and staff between April 28, 2014, and May 25, 2014, to gather feedback about various aspects of satisfaction/dissatisfaction with the IUPUC work environment. The IUPUC Campus Climate Survey was administered by the Office of Institutional Research and Effectiveness to 137 IUPUC faculty and staff. Ninety respondents completed the survey for an overall response rate of 66%. Of the 90 respondents, 42% (38) were faculty and 58% (52) staff.

This was the first administration of the Campus Climate Survey at IUPUC. In order to provide a comparison for IUPUC 2014 findings, Indiana University Northwest (IUN) campus climate survey data (2013) were used for benchmarking. IUN provided the survey tool for the IUPUC survey administration; the survey was conducted at IUN in 2006, 2009, and 2013. For information about IUN findings and responses to findings, visit http://www.iun.edu/institutional-effectiveness/surveys/index.htm. In addition, a comparison of IUPUC staff and faculty responses has been provided. Not all questions were asked of both staff and faculty.

Summary of Responses
Survey questions and findings were clustered into the following 10 key areas. A target satisfaction rate of 80% is indicated on all graphs.

For additional information or questions, contact the IUPUC Office of Institutional Research and Effectiveness at 812.375.7506 or iupucoir@iupuc.edu.
