Passport's Mission

- Ensure general coordination between the two institutions in regard to credit courses, non-credit courses, student services, needs assessment, and marketing.
- Monitor and help promote coordinated student services to facilitate student transfers, concurrent enrollment, and course credit transfer.
- Promote both institutions as distinct post-secondary institutions with differentiated missions which collaborate to meet the full range of community needs.
- Collaboration with students, staff, faculty, and administrators at both IUPUI and Ivy Tech is paramount in the Passport Office's ability to provide services that support transfer student preparation, planning, transition, and overall success.

Passport Services

- Pre-Transfer Advising
- Creation of Articulation Agreements
- Transitional Programming Marketing Materials
- The Passport to IUPUI Scholarship
- The Ivy Tech Guest Student Application Advisor Training and Resources
- Passport's Annual Breakfast

Transfers From Other Schools	820	835	799	621	633	745	622

The count of Fall 2018 external Transfers has continued to decline; however, it should be noted that there was a decline in New Beginners as well.

Fall to Spring Count Comparisons

Comparison of New Beginners to New Transfers in Spring Semesters

	Spring 2012	Spring 2013	Spring 2014	Spring 2015	Spring 2016	Spring 2017	Spring 2018

Transfers From Other Schools	400	424	395	279	298	320	301

The count of students starting in spring dropped for both Beginners and Transfers. The percentage of New Transfers dropped less, which is why the ratio of Transfers to Beginners increased.

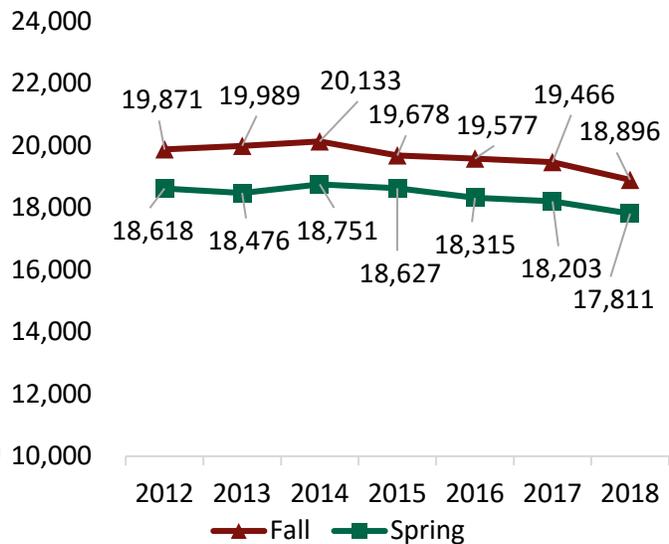

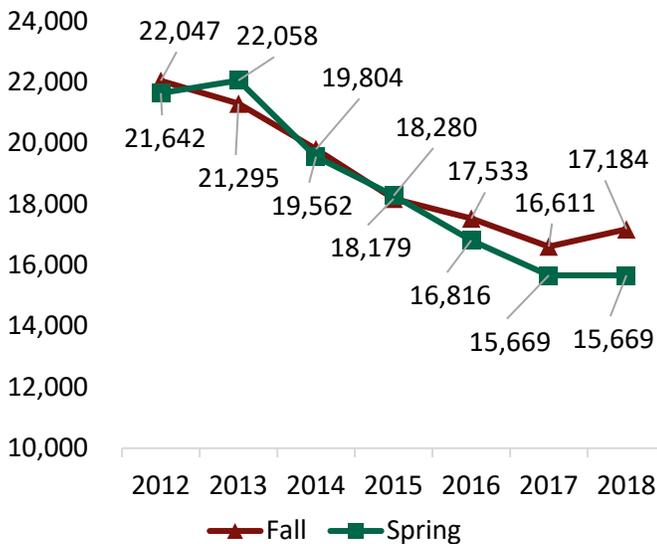

Fall to Spring Count Comparisons

Academic Year, New Student Contributions by Cohort and Semester

The percentage of Beginners starting in spring semesters has continued to drop for several years while the percentage of Transfers starting in spring semesters has dropped to 30%.

Comparison of Fall and Spring Total Undergraduate Enrollments

Undergraduate enrollment at the IUPUI Indianapolis campus stays consistent when comparing fall and spring enrollments. Ivy Tech's Indianapolis Service Area enrollment has not shown a consistent trend. In the early 2010's, Ivy Tech's enrollment in the spring term could be comparable or even higher than the fall, but that pattern seems to have changed since 2016.

25 and Older	34.8%	34.9%	17.6%	19.3%	0.6%	0.7%

The percentage of Ivy Tech Transfers taking 15 or more hours has continued to increase, whereas Transfers from other schools and even Beginners seem to have decreased. This number is noteworthy considering IUPUI's implementation of banded or flat-rate tuition in Fall 2015.

Demographic Profile of First-Time Student Cohorts Academic Year 16-17 and 17-18

General Education Core Completion Status by First Time Student Cohorts AY 16-17 and AY 17-18

All Other IUPUI Juniors and Seniors	10,330	3.09	3.08	9,246	89.5%

The average GPAs of Ivy Tech junior and senior transfers are only slightly lower than the averages for all other IUPUI juniors and seniors. Their retention rates, as well as the retention rates of all external transfers, are below the retention rates of all other IUPUI juniors and seniors.

Articulations of Transfer Credits within TES (Transfer Evaluation System)

Course Articulations in TES (Transfer Evaluation System) by Major Feeder Institutions

The Passport Office, in conjunction with the Office of Undergraduate Admissions, has been the leader across all IU campuses statewide in utilizing the Transfer Evaluation System (TES). TES is used for transfer equivalency recording and contains a student-facing portion of the program known as Transferology. TES and Transferology are used by hundreds of colleges nationwide and is quickly becoming the leader in assisting students with quickly finding their equivalencies.

The number of Ivy Tech course articulations in TES has dropped drastically since last year (18,691 for Ivy Tech in last year's report). Most other institutions' course articulations have dropped as well. This is, however, a positive indicator since there has been extensive work within the admissions department to clean up and remove irrelevant articulations.

First Time Transfers From Other School	0.6%	1.8%	1.9%	0.7%	3.7%	1.7%	4.3%	4.1%	3.6%	1.5%	4.7%

An increasing number of Ivy Tech Transfers are entering IUPUI with either an associate's degree or a certificate. The dramatic surge in percentage may be attributed to an increase in Transfer as a Junior degrees, additional articulation agreements between Ivy Tech and IUPUI, and Ivy Tech's efforts to award degrees to students who had the requisite credits yet had not applied for a degree.

Ivy Tech – Indianapolis Service Area Headcounts, Demographics, and Degrees

Ivy Tech has changed from a region-based model to service areas (shown below). Service areas may contain one or more “campuses” (indicated by the circles) and several “sites” (indicated by the squares). There has also been a change within IU’s recording of Ivy Tech transfer credits. IU no longer counts credits based on the Ivy Tech region (or service area), but now looks at the credits as coming from one college.

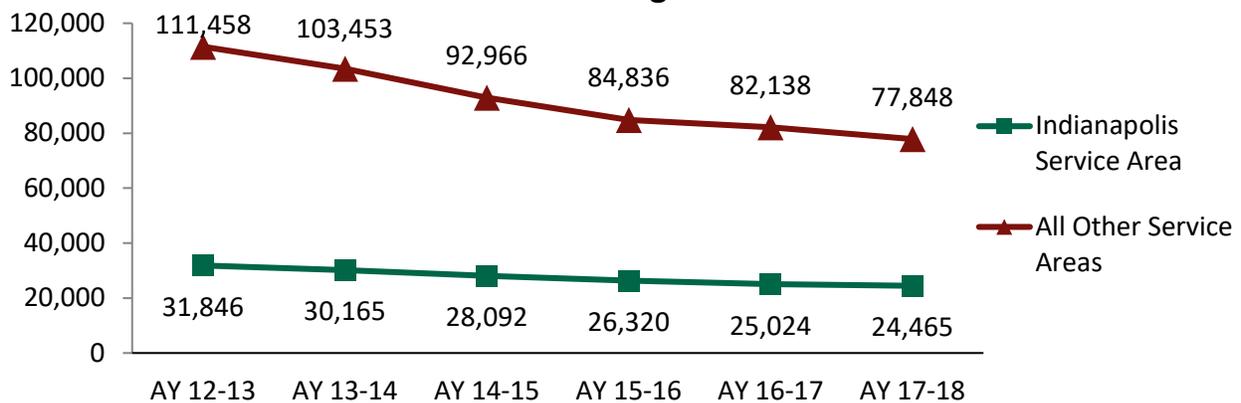

**Headcounts of Indianapolis Service Area and All Other Service Areas
AY 12-13 through AY 17-18**

Number of Students						
	AY 12-13	AY 13-14	AY 14-15	AY 15-16	AY 16-17	AY 17-18

Total	143,304	133,618	121,058	111,156	107,162	102,313

When excluding dual-credit high school students from consideration, both Ivy Tech’s Indianapolis service area and the college as a whole have been experiencing declines in enrollment for several years. While the rate of decline has been fairly consistent for the Indianapolis service area, the other areas are now experiencing a slower rate of decline.

The number of deferred students dropped sharply in Academic Year 17-18. There was a decline in applications that year; possibly due to the inclusion of an essay requirement. It is also worth noting that students of color make up a larger percentage of deferred students as compared to their percentage within the student body.
